

GEORGETOWN

BY FOREST RIVER

GEORGETOWN | 370 XL

Warm, inviting interiors accented with residential style lighting, tasteful designer fabrics, coordinating window treatments, and quality oak or maple doors and trim are hallmarks of what you can expect when you step into a Georgetown motorhome. The large flush floor main slide-out features extra deep cabinetry with opulent grooved mirrored doors. The dinette area is enhanced with large windows for a more open feel. The new flush floor main slide will accommodate either the traditional booth or a free-standing table and chairs

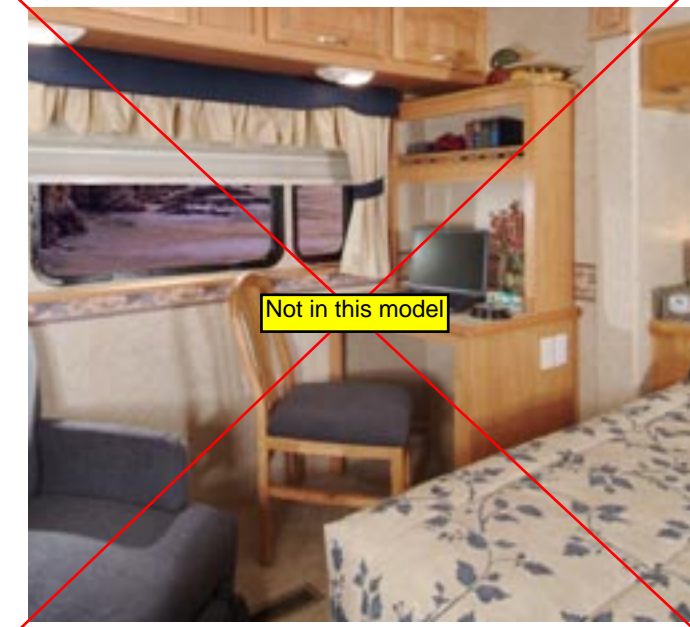

Georgetown's handy counter extension is an easy to use feature that adds more workspace to your kitchen. Shown above with the XL's solid surface countertop and flush sink covers.

(Right) Clean, sleek lines are what characterize Georgetown's new cockpit design. From the easy to read gauges, to the comfortable seats and convenient controls, driving a Georgetown is an incredibly satisfying experience. Standard features include 4 point leveling system (all slide out models) and in-dash stereo CD system.

(Left) If you have to drive a long way, you might as well do it comfortably and in style. Georgetown's optional luxurious ultra leather driver's chair is a must-have for your total driving experience.

You will feel right at home in Georgetown's fully equipped kitchen. Not only is everything easy to reach, but there is plenty of workspace and tons of storage as well. The slide-out pantry, convenient counter extension, large refrigerator and microwave all add to our commitment to give you a motorhome designed with you in mind.

Sometimes it's nice to be able to get some work done on the road. With Georgetown's model 359 triple slide-out, there is plenty of space for the optional computer desk and easy chair with ottoman.

Bright, airy and spacious describe Georgetown's beautiful interior. With sweeping panoramic views from the huge front windshield and beautiful hand-crafted cabinetry, it is clear to see that this is not just another motorhome. A space-enhancing slide-out dramatically increases living space, while the soft touch vinyl ceiling and 27" TV are added luxuries.

In a Georgetown you certainly can take it with you! The extra large basement storage compartments with multiple pass-throughs are characteristic of Forest River's pledge to design with you in mind. Shown are the standard Georgetown graphics with optional paint.
